Subject	222239021 (Communications in Statistics – Theory and Methods) A revise decision has been made on your submission

23-Apr-2023

Dear Prof. Yongsong Qin:

Your manuscript entitled "Adjusted empirical likelihood for probability density functions under strong mixing samples" which you submitted to Communications in Statistics – Theory and Methods, has been reviewed. The reviewer comments are included at the bottom of this letter.

The reviews are in general favourable and suggest that, subject to minor revisions, your paper could be suitable for publication. Please consider these suggestions, and I look forward to receiving your revision.

To submit a revision, go to https://rp.tandfonline.com/submission/flow?submissionId=222239021&step=1. If you decide to revise the work, please submit a list of changes or a rebuttal against each point which is being raised when you submit the revised manuscript.

If you have any questions or technical issues, please contact the journal's editorial office at LSTA-peerreview@journals.tandf.co.uk.

Because we are trying to facilitate timely publication of manuscripts submitted to Communications in Statistics – Theory and Methods, your revised manuscript should be uploaded as soon as possible. If it is not possible for you to submit your revision in a reasonable amount of time, we may have to consider your paper as a new submission.

Once again, thank you for submitting your manuscript to Communications in Statistics – Theory and Methods and I look forward to receiving your revision.

Sincerely,
Prof. Narayanaswamy Balakrishnan
Editor in Chief, Communications in Statistics – Theory and Methods
LSTA-peerreview@journals.tandf.co.uk

Comments from the Editors and Reviewers:

Reviewer: 1

Comments to the Author
The work in the manuscript is new, and has a certain value.
